FOR IMMEDIATE RELEASE

Appssurance Inc. Announces Oracle GRC UPK Training Online

TAMPA, FL – October 28, 2009 – Appssurance Inc., an Oracle Certified Partner, announced today that they are offering Governance, Risk, and Compliance (GRC) Training UPK's for the Oracle suite of GRC products in a convenient hosted model.

Available immediately, these UPK's focus on the entire suite of Oracle GRC products including;

- Application Access Controls Governor (AACG)
- Preventive Controls Governor (PCG)
- Configuration Controls Governor (CCG)
- Transaction Controls Governor (TCG)
- GRC Manager (GRCM)
- GRC Intelligence (GRCI)

Oracle's User Productivity Kit (UPK) is a collaborative content development and delivery platform that drives end user and project team productivity throughout all phases of the software ownership lifecycle. Pre-developed UPK content for GRC has not been offered in the past. These modules were developed and modeled after numerous successful global Oracle GRC implementations by Appssurance consultants.

Appssurance's relationship with Oracle as a leading Oracle GRC implementation partner and risk advisory firm ensures that these UPK's are developed with the highest standards and most current functionality in the latest versions (GA) of the GRC applications.

The Appssurance GRC UPK content can be easily utilized to ramp up and prepare for an internal GRC project and to provide end user training to your relevant stakeholders. The benefits of an online delivery model include no hardware or software to install, therefore you always working on the latest version of the Appssurance UPK's.

For additional information and pricing please contact info@appssurance.com or call (888) 866-2007
